Product designer and co-founder with 10+ years in design: 8 in product and UI/UX, built on a foundation in brand and graphic design.
Specializing in design systems, multi-brand product architecture, and brand identity, with a track record of building products end to end as a founding designer.
Work closely with engineering teams, and currently learning front-end to work closer to code.

Core Expertise

- Design Systems
- Multi-brand & Multi-product Architecture
- UX Architecture & Information Systems
- Design–Engineering Collaboration
- Governance, Consistency & Scalability

Work Experience

Keysty | Co-founder & Designer

February 2026 / Current

- Co-founded Keysty; leading product and brand design end to end
- Defining product strategy, roadmap, and brand identity alongside the founding team
- Defining architecture, reusable components, and UI patterns
- Establishing design principles and contribution guidelines

Paydaş (365+) | Founding Product Designer

March 2024 / Current

- Founding designer at 365+, the studio behind Paydaş, Otopass, Walk2, and Duelyx; designed each product end to end, from brand identity to product
- Aligned design with business strategy across B2B, B2C, and SaaS products, including phasing and roadmaps
- Built design systems, component libraries, and UX guidelines for each product
- Alongside this, freelance work with Tonguç Akademi, Hesap, DFSK, Wisecare AI, and more

Paribu Design Studio (formerly Sherpa) | Product Designer

December 2021 / March 2024

- Joined Sherpa Experience Studio in December 2021 and continued on Paribu's design team after Paribu acquired Sherpa
- Designed B2B and B2C Web3 products, including Paribu Custody web and signer apps
- Created and managed scalable design systems
- Built interaction and experience standards, and supported UX research and design strategy
- Designed UI flows and maintained design documentation

Loodos | Product Designer

June 2021 / December 2021

- Designed mobile and web applications for brands including Vodafone, Petrol Ofisi, and A101
- Participated in user research, design updates, and application redesigns

-99 Design Studio | UI Designer

June 2020 / May 2021

- Designed web and mobile interfaces for brands such as Ipekyol, Machka, Twist, Magrabi, and Fakir
- Contributed to wireframes, interface concepts, and visual design after research phases

TRA Tech | UI Designer

July 2019 / June 2020

- Designed mobile applications, CRM panels, and web interfaces for finance and banking products
- Conducted market and user analysis to support both visual and content decisions

Unicrow | UI Designer

December 2018 / July 2019

- Designed mobile and web interfaces
- Created design systems and content structures
- Led branding, print, and social media designs for the company's annual event

Earlier Work | Brand & Graphic Designer

2015 / 2018

- Branding, identity, print, and graphic design projects
